The Slice Shop

The mission

A new pizza place is opening next to the school, and the owner needs a flyer by Friday. You are the designer. This time the star is **text**: a big title, words running round the pizza, a text box, text poured into a circle and letters cut out of a coupon.

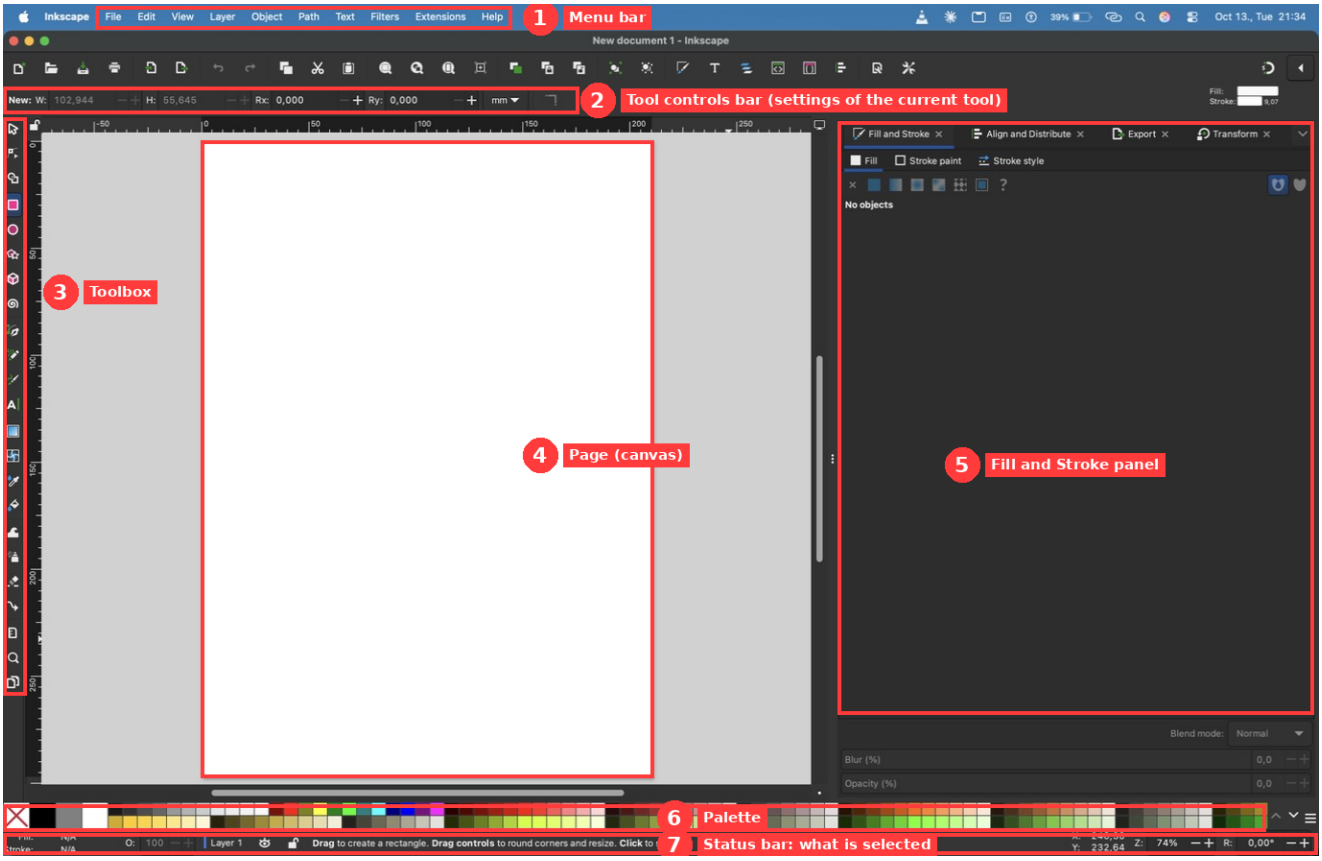

No keyboard shortcuts – every command is in a menu or on a toolbar. Hand in an SVG and a PNG. Colours, fonts and sizes are up to you; what counts is that every text element is made the way the table says.

Element	How it is made	What you practise
Background and pizza	Rectangle tool, Ellipse tool, palette	warm-up: basic shapes, fill
Title SLICE SHOP	Text tool: click and type; font and size in the tool controls bar; fill and stroke	regular text, font, size, fill, stroke
HOT * FRESH * FAST ring	circle + text → Text ▸ Put on Path; circle set to no paint	text on a path
Opening hours	Text tool: DRAG a box, type; resize with the ◇ handle	text box (flowed text)
FREE SLICE badge	circle + text → Text ▸ Flow into Frame; centre alignment	text in a shape
-10% coupon	text → Path ▸ Object to Path → Path ▸ Difference from a rectangle	text as a shape, cut-out letters

Before you start

This is Inkscape. You will use the numbered parts: menu bar, tool controls bar, toolbox, page, Fill and Stroke panel, palette, status bar.

File ▸ New a new document

File ▸ Save As... surname_sliceshop.svg – then File ▸ Save every few minutes

View ▸ Zoom ▸ Zoom Page shows the whole page

Three things to remember about text:

CLICK = one line of text; DRAG = a text box whose lines wrap

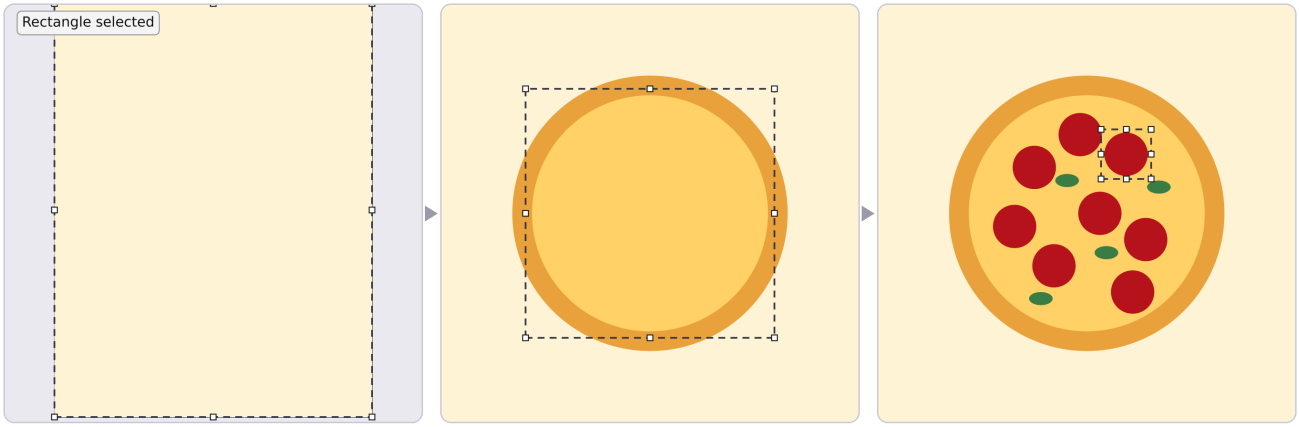

Caveat | Normal | 144 font, style and size: select the text, then change them in the tool controls bar

\+ colour: Selector, click the text, click a swatch in the palette

The Text tool is the big **A** in the toolbox. When you are typing, the tool controls bar at the top shows the font, the style (Bold, Italic) and the size. No keyboard shortcuts in this worksheet – every command is in a menu or on a toolbar.

Step 1 – Background and pizza (warm-up)

Quick, with shapes you know – the text is the real job.

1 → Rectangle over the whole page. Click a light cream colour.

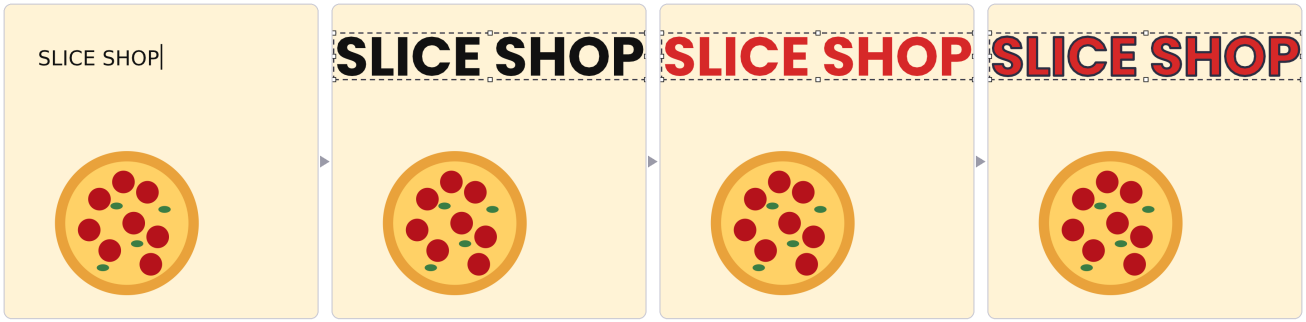

2 → + Big orange circle = crust, smaller yellow circle on top.

3 → Small dark red circles = pepperoni. Done in 4 minutes!

Leave the top of the page free for the title and the bottom for the text box and the coupon.

Step 2 – The title

Click with the Text tool = one line of text. Then make it big, bold and red with a dark outline.

1 CLICK at the top of the page and type SLICE SHOP.

2 Tool controls bar: a bold font (Impact, Arial Black), size 72.

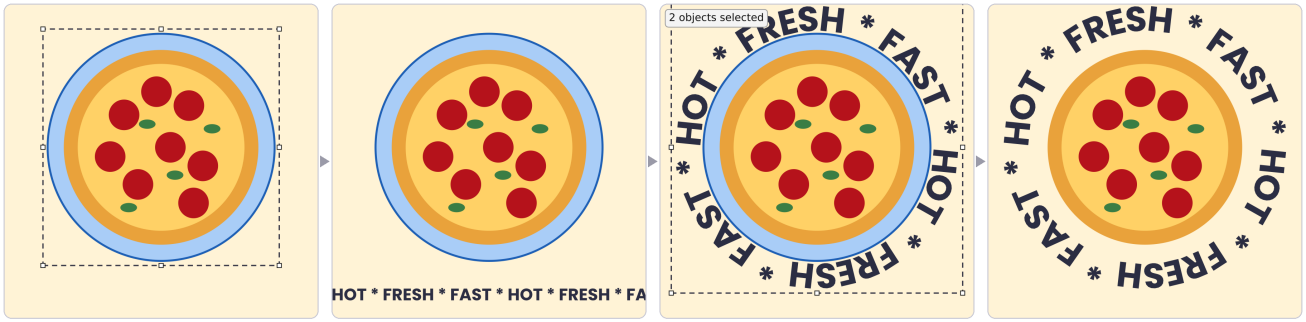

3 → Selector: click the text, then click red in the palette.

4 Object ▸ Fill and Stroke… Stroke paint tab ▸ dark; Stroke style tab ▸ width 2.

Fonts: if Impact or Arial Black is missing, pick any font with Bold or Black in the style box. To change the text later, pick the Text tool and click into the letters.

Step 3 – Text round the pizza

Text ▸ Put on Path makes text follow a shape – here a circle.

1 A circle a bit bigger than the pizza. Any colour.

2 → Click below, type HOT * FRESH * FAST * … Size about 20.

3 + Shift → **Text ▸ Put on Path** Select the circle AND the text. The text wraps round!

4 → Click the blue circle, then X (no paint): only the text stays.

Too much text? It stops where the circle ends – make the size smaller. Too little? Click into the text with the Text tool and type more.

Step 4 – A text box

Drag instead of clicking: you get a box, and the lines wrap at its edge.

1 DRAG a box at the bottom left (drag = text box, click = line).

2 Type the opening hours. Size 14. The lines wrap by themselves.

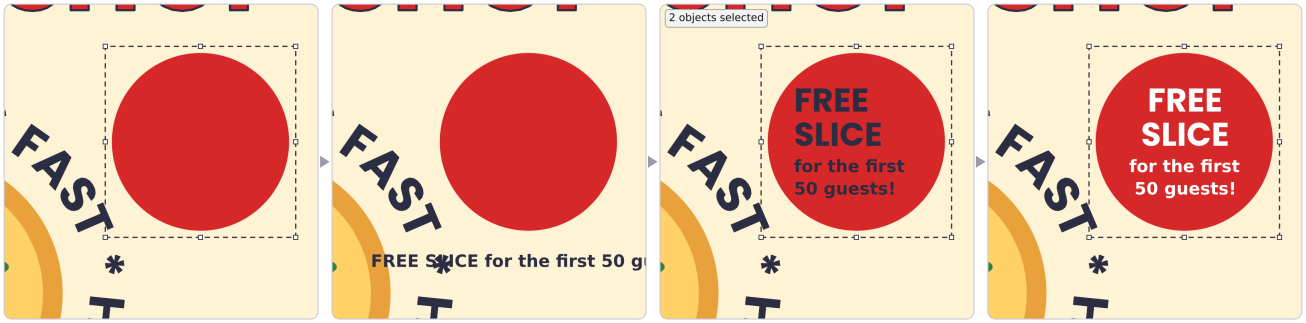

3 RED frame = the text does not fit: some words are hidden.

4 Drag the ◇ corner handle: bigger box, all text shows.

Press Enter only to start a new paragraph – never at the end of a line, the box wraps for you.

Step 5 – Text in a circle

Text ▸ Flow into Frame pours the text into any shape. The circle stays where it is.

1 → Red circle at the top right, next to the pizza.

2 Click beside it and type FREE SLICE for the first 50 guests!

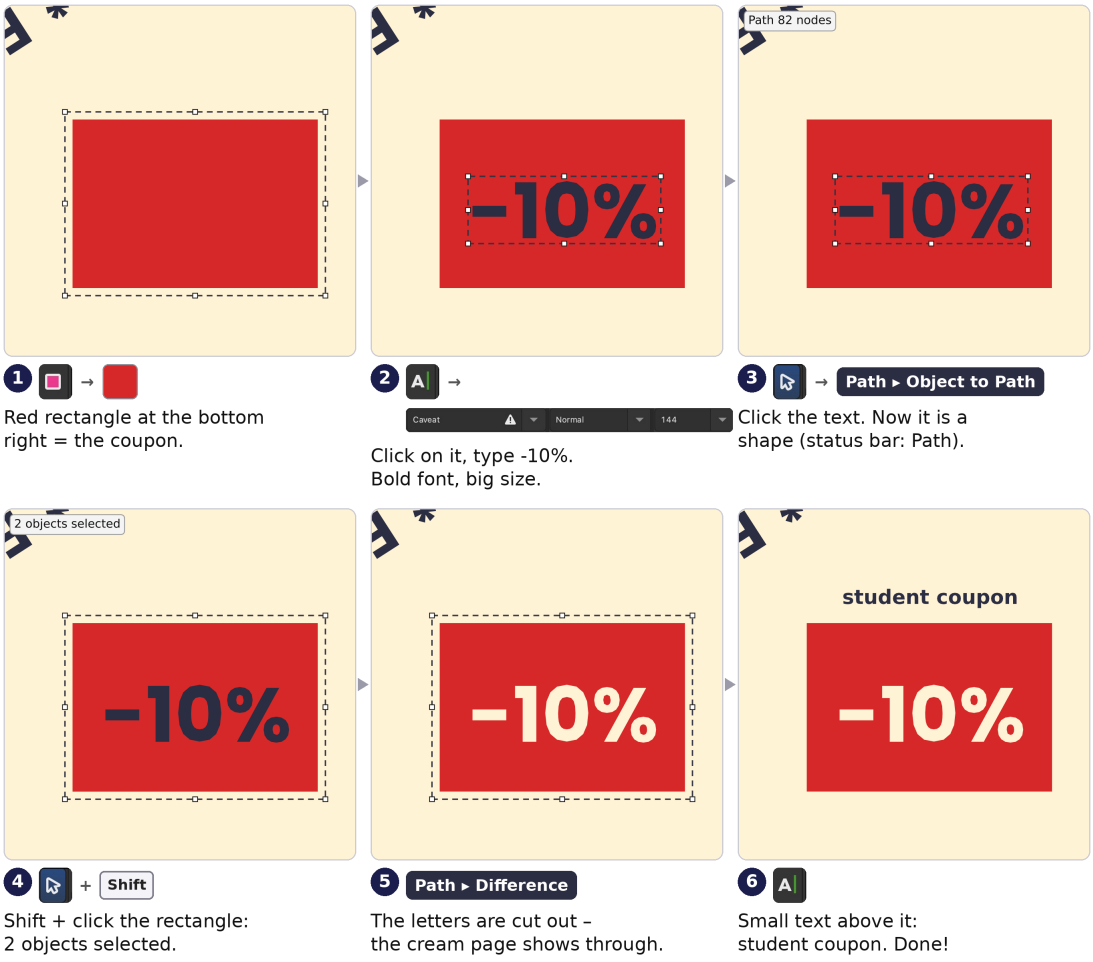

3 + Shift → **Text ▸ Flow into Frame** Select the circle AND the text: the text pours into the circle.

4 → + Centre alignment, white colour. Bigger size for FREE SLICE.

The text must be selected together with the circle – exactly 2 objects. To edit the words later: Text tool, click into them.

Step 6 – Cut-out coupon

Turn the text into a shape, then cut it out of the rectangle with Difference – as in the earlier posters.

After Object to Path the text can no longer be edited as text – check the spelling before you do it! The text must be on top of the rectangle.

Step 7 – Save and hand in

File ▸ Save the SVG file

File ▸ Export… choose Page, name it surname_sliceshop.png, click Export

Hand in both files: `surname_sliceshop.svg` and `surname_sliceshop.png`. (Older Inkscape: File ▸ Export PNG Image…)

Bonus – if you have time left

Pick one or more.

Task	Recipe
Title shadow	Select the title, Edit ▸ Duplicate, click a dark colour, Object ▸ Lower, move it a little down and right
NEW! burst	Star tool, Star mode, 14 corners, yellow; type NEW!, select both → Text ▸ Flow into Frame
Address line	Text tool, small size, choose Italic in the style box: 12 Pizza Street, Budapest
Tilted coupon	Selector: click the coupon, click it again, drag a corner arrow to rotate it
Menu with prices	A second text box: Margherita 1990 Ft, Pepperoni 2390 Ft, Veggie 2190 Ft – one per line (Enter)

Shadow: Edit ▸ Duplicate the title, dark colour, Object ▸ Lower, move it a little

Burst: Star tool, 14 corners, text inside ▸ Text ▸ Flow into Frame

Address line: Text tool, small size, Italic in the style box

Tilted coupon: click it twice, drag a corner arrow

Bonus ideas: shadow, burst, address line, tilted coupon

Checklist before handing in

- ☐ Background covers the page; a pizza with crust, cheese and pepperoni
- ☐ Title in a bold font, red fill and a dark stroke
- ☐ HOT * FRESH * FAST runs round the pizza, no circle visible (Put on Path)
- ☐ Opening hours in a text box, all text visible – no red frame (text box)
- ☐ FREE SLICE text inside the red circle, centred, white (Flow into Frame)
- ☐ -10% letters cut out of the coupon (Object to Path + Difference)
- ☐ Both SVG and PNG saved, with your surname in the file name
